

FUTURELAB 2005 COMING TO WEAVER HIGH SCHOOL

Weaver High School students will be able to get a glimpse of the future of science when a traveling exhibit called "FutureLab 2005" visits the school March 28 and 29, 2005.

FutureLab is a traveling time capsule, which is stopping at high schools around the country to give students a hands-on look at what the future will hold and the possibilities yet to be discovered. FutureLab exhibits include a Lunar Space Rover, remote controlled robots, and a look at the science fiction view of the future.

FutureLab will give students a chance to learn about nanotechnology, genetic mapping, and the evolution of our solar system and beyond.

The exhibit will be open to the public at no charge on March 28, from 4 p.m. to 7 p.m. The event will be held in the Weaver gymnasium.

Weaver High School is located at 415 Granby St., Hartford.
For more information, contact Deborah Mortensen at Weaver HS, 695-1713.
